

MINJET

Storage Charger – Jet Wats

SIMPLE AND AFFORDABLE

Avoid expensive and complicated capacity expansion (Only 40kW input from grid)

SAFE

Two-Level fire protection system (pack level and system level)

FAST DC CHARGE

160kW per charge gun

BUY AT LOW AND SELL AT HIGH

200kWh storage and bi-directional AC charging

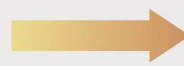

Distribution network 400 V

Storage charger

EV charging
 Max total charge power 240kW
 Max single charge power 160kW

Specification

Model	MM200k-A
Energy	197kWh
Charging Gun No.	2
Cycle life	6000 times
Output EV Charging Power	160kW max per charge gun, 240kW max total
Output EV Charging Voltage	200V-1000V
EV Max Charging Current	250A
AC Input voltage	400V 50Hz 3P+PE
Input Charging Power	40kW
Thermal management	Liquid cooling
Operational temperature	-20°C~45°C
Storage temperature	-20-60°C
IP grade	IP 54 for Product and IP 67 for High voltage system
